

Speaker 1:

Okay. So we have a patient who is almost a year out from a breast augmentation. I want her to tell us a little bit about how she knew Dr. Burgdorf was right for her and how her whole experience has been with her breast augmentation surgery and her recovery.

Speaker 2:

I knew Dr. Burgdorf was right for me. My husband and I went to a couple doctors. It was the moment we went and came into the office, it was just a feel that we had, the way he interacted with us. He knew exactly what we wanted by us saying it. And he made sure that we were on the same page before surgery. And the whole office staff was just... It was just a general overall feeling of that they actually cared and wanted to get it right. And here we are.

Speaker 1:

Yeah. So have you had some increased confidence since your surgery? Was it a great decision to make?

Speaker 2:

Oh yeah. Oh, I wish I did it sooner. There was that initial like, "Oh my gosh, are people going to judge me?" But I don't even think anyone noticed. I'll tell you, like my mother-in-law hasn't even noticed. And that was what we were concerned about. But it's just a natural... It's almost how I was before kids and my husband likes it. Yeah. And all my friends that know about it, they love it. And they are like... Most people are like, "I can't believe that they're fake because they look so real and natural."

Speaker 1:

Awesome. Thank you.
