Interviewer:

So we have a patient here. She's about four months out from a procedure. What procedure did you have done, Rose?

Rose:

Breast augmentation.

Interviewer:

Breast augmentation. Yeah. Yeah, yeah. How long had you been thinking about getting a breast augmentation?

Rose:

About 10 years.

Interviewer:

10 years?

Rose:

Yeah.

Interviewer:

Tell me what made you decide to go with Dr. Burgdorf to do it after all that time.

Rose:

Well, all the time because I was searching online, looking at all the different reviews. And I find him, everything everybody's said about him is so wonderful and great, and I choose him.

Interviewer:

Good. And are you happy with your results?

Rose:

Oh, yes. I am happy.

Interviewer:

How was your recovery?

Rose:

It's wonderful.

Interviewer:

Good. Good. And would you recommend Dr. Burgdorf to some of your friends?

Is that because of your results?

Yes, I am.
