Hi. So I decided to go with Dr. Burgdorf after probably thinking long and hard about a breast augmentation for a year or two. And then I had a friend that gave rave reviews about Dr. Burgdorf, so I decided to come in and meet him. And I met him and Haley and I just knew it was going to be a good fit. I felt like I had a lot of upfront information that brought a lot of comfort to something that I hadn't been through before. So I decided to go through with the augmentation and the after was, there was a lot of ups and downs, and I just felt like I had a team with me the whole time. And it was great just to be able to [inaudible 00:00:46] and just be ... And then know about what was going on and if it was normal or not. And I felt like I had just that information that brought comfort to something that, again, I wasn't really in the know about. So, I couldn't recommend them more for anything really. The followups have been great. Yeah.
