Chelsea:

Hi, my name is Chelsea Arena and I'm a patient of Dr. Burgdorf's. I was extremely skeptical about plastic surgery before I came here. But just talking to Dr. Burgdorf for five minutes made me just want to do everything that I possibly could that I wanted to change. He is not pushy. He is very honest. He won't do anything if he truly doesn't believe that it's going to be in the benefit for you.

I've gotten my breasts done and I've had a Brazilian butt lift and I could not be happier with my results. Him and his team have been with me every step of the way. They keep in contact with me. They check in on me. They have just been great in every possible way that they could be. I would never go anywhere else or question anything.

I was skeptical to do plastic surgery, because I've seen so many negative results from my other friends and stuff like that. And now they're super jealous because everything that I've gotten done has been perfect. So if you're interested in doing plastic surgery, Dr. Burgdorf 110% is the doctor you should come to.
