Speaker 1:

Hi, I last year got a breast lift and reduction and then added in very small gummy bear implants. Before I chose Dr. Burgdorf, I went to another plastic surgeon. I wasn't as comfortable with him as I was with Dr. Burgdorf.

Dr. Burgdorf has remembered everything to and from my daughter's name to how I'm doing emotionally, physically, and just checking up on me. He's very thorough. Called me the next day after surgery, which I've never had a surgeon do. He's just a great doctor and I recommend him for anybody.
