

Speaker 1:

Hi, I'm Terry. And I'd just like to say here at Music City Plastic Surgery, all the staff, Dr. Bergdorf has been just absolutely wonderful. He is so compassionate and understanding, and I am so pleased with my procedures. When I first decided to have surgery, I was a size 16 and I absolutely was wearing clothing that was way, way too old for me. Well, I'll say it was too old for me. Anyway, now I just, this has been a month now, and I just had to go buy something new. And to my surprise, I went from 16 down to a 12. Well, I'll have to say, I thought it was a 12 and got it home and the slacks were too big. So guess what? I get to go back to the store, but I'm doing fine now. And my scars are all healing and I just think this is a wonderful place.
