Speaker 1:

How was the process of your surgery through with Music City Plastic Surgery?

Speaker 2:

The surgery was fine. I was a little bit concerned about it, of course because I had scheduled it a few weeks out and you have a lot to think about. But the process at the hospital was awesome. Everyone there was just, I mean, I gave high recommendations for them because they were all so great. And I was home before you knew it. It was easy.

Speaker 1:

Absolutely. How are you feeling about the results?

Speaker 2:

Oh, I love them. Well, I don't only love them. My husband loves them. And the first week was a little, well, rough just getting out of bed, I guess, is what you want to say. But after that, I've been back to my routine. I'm careful not to lift too much but I'm going to go play golf today.

Speaker 1:

Fantastic. And that's three weeks post-mommy makeover.

Speaker 2:

Yes.

Speaker 1:

And you're back on the golf course. Congratulations. You look amazing.

Speaker 2:

Well, thanks to all of y'all. I appreciate it.

Speaker 1:

Okay.
