

Speaker 1:

I just recently had a breast augmentation with Doctor Burgdorf. I've been thinking about it for probably the last 10 years. It's something that I always knew that I really wanted for my own right boost in confidence. I wasn't happy with my size.

The results were exactly what I wanted. I'm a nice full-size C. He's listened to exactly what I needed. His office staff has been super nice and helpful through the whole process.

The one thing I was most afraid about in getting the surgery was the pain and the recovery and had I known it would have been this easy, I would have done it a long time ago because it was not nearly as bad as whatever you read online or what I could have imagined for myself.

So overall, super pleased with my results. Wish I did it a long time ago and Doctor Burgdorf and his staff did a great job.
